

MALITH NIRANDITHA

Web Developer | UI/UX Designer | Information Technology Graduate

PROFESSIONAL PROFILE

Information Technology graduate with practical experience in software engineering, web development, IT support, and UI/UX design. Skilled in JavaScript, React.js, Node.js, Express.js, PHP, SQL, MongoDB, and MERN stack development, with hands-on experience developing responsive web applications and supporting IT infrastructure. Strong foundation in full-stack development, troubleshooting, database technologies, REST APIs, and user-centred interface design, supported by effective problem-solving, teamwork, communication, and analytical capabilities.

Portfolio

<http://malith-niranditha.vercel.app/>

CORE COMPETENCIES

- Full-Stack Web Development
- Front-End Development & Responsive Web Design
- JavaScript, HTML, CSS & PHP
- React.js, Node.js & Express.js
- MERN Stack Development
- SQL, MySQL & MongoDB
- REST APIs & Firebase
- UI/UX Design, Wireframing & User Flows
- Figma & Interface Prototyping
- IT Support & Technical Troubleshooting
- GitHub, Postman & Visual Studio Code
- Android Application Development

PROFESSIONAL EXPERIENCE

IT Assistant

2023

Wimani Engineering Works, Heenatiyana, Minuwangoda, Sri Lanka

Duties and Responsibilities

- Maintained and supported internal IT infrastructure, computer hardware, and network systems required for day-to-day engineering and administrative operations.
- Provided technical troubleshooting and software support for hardware, system, and user-related IT issues.
- Assisted with the deployment and support of technology solutions used across heavy steel fabrication, pipe, and PVC-related operational workflows.
- Supported data management and technology-enabled administrative processes to maintain efficient internal operations.

Software Engineer Intern

2022 - 2023

Eyerax Technologies (Pvt) Ltd. Negombo, Western Province, Sri Lanka

Duties and Responsibilities

- Contributed to the development of the Bravozero website using HTML, CSS, JavaScript, and React.js, supporting the delivery of responsive and user-friendly web interfaces.
- Supported front-end development throughout the software development lifecycle, including functionality, cross-browser compatibility, performance, and quality requirements.
- Applied established coding standards and development best practices when working on project modules.
- Collaborated with cross-functional teams to understand technical requirements and support project sourcing, onboarding, and implementation activities.
- Assisted with identifying and resolving development issues to maintain application functionality and usability.

HIGHER EDUCATION

BSc (Hons) in Information Technology Specializing in Information Technology

Sri Lanka Institute of Information Technology (SLIIT), Malabe, Sri Lanka
2020 - 2026

SECONDARY EDUCATION

General Certificate of Education
Advanced Level Examination
Sri Lanka

Ganthiriyagama Mahinda Maha
Vidyalaya, Anuradhapura, Sri Lanka
2018 | Successfully Completed

Stream: Technology

- ICT C
- Science for Technology S
- Engineering Technology S
- General English S

TECHNICAL SKILLS

- **Programming:** C, C++, Java, JavaScript, Python, PHP
- **Web Technologies:** HTML, CSS, React.js, Node.js, Express.js
- **Databases:** SQL, MySQL, MongoDB
- **Mobile Development:** Android, Android Studio
- **UI/UX:** Figma, Wireframes, User Flows
- **Tools & Platforms:** GitHub, Postman, Visual Studio Code, Firebase, 000Webhost

ACADEMIC & SOFTWARE PROJECTS

MaliTHINK - Personal Portfolio

React.js | TypeScript | Tailwind CSS | Vite | Vercel

- Designed and developed a responsive personal portfolio website to showcase software development projects, technical skills, professional experience, and academic background.
- Built a modern and interactive user interface using React.js, TypeScript, and Tailwind CSS, incorporating reusable components, responsive layouts, smooth animations, and user experience optimization.
- Utilized Vite for an efficient development workflow and deployed the completed portfolio on Vercel for reliable web hosting and accessibility.

Garment Factory Management System

MERN Stack

- Developed a full-stack management system supporting key garment factory functions, including order, inventory, and employee record management.
- Applied MERN stack technologies to integrate application functionality and data management within a web-based solution.

Sea-Save Website

React.js | Node.js | Express.js | Firebase | REST API

- Designed and developed a web application focused on raising awareness of marine life conservation.
- Applied modern front-end and back-end technologies with REST API integration to implement application functionality.

Food Delivery Application

Android Studio | PHP | 000Webhost

- Developed a mobile application designed to support food ordering and delivery tracking.
- Applied mobile application development and back-end integration concepts to implement core application functionality.

Education Institute Website

Figma | UI/UX Design | Wireframing | User Flows

- Designed a UI/UX prototype for an educational institute website using Figma.
- Applied user-flow planning, wireframing, interface design, and human-computer interaction principles to create a structured user experience.

Online Learning System

MERN Stack

- Contributed to the development of an online learning system using full-stack MERN technologies and web application development concepts.

Additional Academic Projects

- Online Music Center using Java, HTML, CSS, JavaScript, and MySQL; Online Ticket Book Store using HTML, CSS, PHP, and JavaScript.
